GROUNDS RECYCLED ORGANICALLY

ABOUT GRO

Urban mushroom vendor, environmentally focused, forward thinking, professional supplier.

City Farm is an organic community garden, education and network centre. We promote healthy urban environments that are productive and diverse. City Farm was built on the site of an abandoned scrap metal yard and a battery recycling plant, which we transformed in order to demonstrate how heavily degraded land can be rehabilitated.

City Farm promotes environmental awareness and responsible practices by providing information, training and hosting community-based projects. With our parent body, Men of the Trees, we facilitate tree-planting trips around the State and hold public demonstrations for events and festivals. City Farm also supports the local music and art community through regular concerts, festivals and exhibitions. City Farm facilitates government employment and service programs, permaculture tours and workshops for Primary and high school students.

Our goals are threefold:

1. Divert an appreciable amount of organic waste from landfills.
2. Create awareness that waste can be a resource.
3. Offer a model of sustainable business practice to the community at large.
