Georgi Kay: Brief

THE ARTIST

Georgi Kay is a 17 year old singer-songwriter who plays catchy, soulful, infectious indie-pop music. Her influences include Sarah Blasko, Metric and The Yeah Yeah Yeahs.

PROJECT GOALS

The goals of this project are to illustrate and promote an image for the artist. As a new/young artist, she has not yet defined a specific image for herself. This project aims to create an image to promote herself and her music, particularly in support of her regional tour in June. This will be promoted through posters and press advertisements, and if possible, t-shirts and other merchandise.

THE TARGET MARKET

Georgi Kay's target demographic is females aged 16-24. The market would be located in the Perth metropolitan area, possibly in the western suburbs. They would be school/university students, mostly arty/alternative types. The target market would have a sufficient income, from parents or part time jobs – cafe work, retail work, etc. Because the music is fun, catchy and poppy, but also has soulful and melancholic undertones, it is suitable for teenage girls/young women who would enjoy pop music with a bit of depth.

Hi guys,

As I kind of anticipated (and warned you guys about) there has been some changes regarding this project. I am no longer managing Georgi Kay so we will have to switch to Hand Stands for Ants. Hopefully you haven't already put too much time into this. I will be sending through a new brief but the requirements have changed a little. Would you be interested in doing any website design? I am happy to meet to discuss this with you - in the meantime if you would like to check out Hand Stands For Ants their myspace is www.myspace.com/handstandsforants

Thanks, and please feel free to call me if you would like to discuss this.

Brief

THE ARTIST

Born in Perth, the most isolated city in the world, Hand Stands For Ants have had comparisons drawn with Jamie T, Arctic Monkeys, Kings Of Leon and Modest Mouse. Their rhythmic and often explosive music has gained them a pickle truckload of attention since their debut EP release in April 2010. In the year that has passed since their first release H\$4A have; recorded another single 'Ghosts' complete with 5 piece horn section; recorded, written and produced an album in an abandoned shop in Perth city; put on two independent off the radar festivals with the aim of "feeding souls"; played pickle truck load of gigs and parties (ambulances, police, crowd surfing on couches, more police and nudity) and had a video clip made for them by the Film & Television Institute of Australia
